A PROBABLE DASH FOR VLADIVOSTOK

Russians Are Inclined to Believe That Wiren's Squadron Has Left Port Arthur. No News From Mukden.

St. Petersburg, Oct. 7.—2:30 a. m.—While the admiralty claims to have no knowledge of the departure of the Port Arthur squadron it is inferable from the way in which the report reads that such an event has transpired and get the confirmation would not create sur...

The Associated Press is informed that the dispatches have been sent to Admiral Wiren to break through the Japanese fleet, but it is partly admitted that the admiral has discretionary power to leave Port Arthur, should the situation demand or conditions be propitious.

In naval circles it is pointed out that Wednesday morning the condition might have been favorable for a sortie. Heavy storms raged Tuesday and doubtless impeded the blockading vessels, and particularly the torpedo boats, so near shore, thus fearing the way clear for a dash to Vladivostok. Some naval officers, however, are inclined to think the firing that was heard at Chefoo may only have been directed at blockade runners.

Significant orders have been issued to keep time-expired members of all the guards regiments stationed in and around St. Petersburg with the colors till March 1905.

Orders were issued today to all steamers belonging to the Volunteer Fleet and the cruisers Oleg, Zemtchug and Izumrud to rejoin their vessels at Cronstadt immediately. It is believed that this mobilizes the entire Volunteer Fleet, whose flagship Rossia is going to renew the whole squadron.

ALLEGED SWINDLER ARRESTED ON STREET

Police Believe They Have the Man Wanted in Missouri for Passing Bogus Checks, and for Whom Reward Is Offered.

H. Barnes, alias E. A. Carver, alias H. A. Hoover, alias C. B. Carver, a man of many names and of quite a criminal career if the records be true, is under arrest in the city jail awaiting the arrival of requisition papers.

Carver was arrested yesterday afternoon at a corner on Pike's Peak avenue by Officer Roy Rose, chief of the police department. He was arrested by description which had been sent from Missouri. The police had been looking for him for several days and yesterday Clerk Rose read his name and quickly placed him under arrest.

Carver asserted his innocence of the crime very strongly, but he tallies so well with the description that Chief Reynolds is sure he is the right man.

Carver, alias Barnes, etc., is wanted at Maryville, Mo., on a charge of feloniously defrauding the Farmers State Bank at Union Star, Mo., by means of a worthless check. He is also wanted in Indiana, and at Albany, Mo., for similar offenses. The Missouri Bankers Association offers a reward of $250 for his arrest and conviction, and Chief Reynolds feels sure that Clerk Rose will get the money soon after Carver is taken back.

While Carver denies his identity as the criminal wanted, he refuses to go back to Missouri without requisition papers, which is taken as an indication that he is not particularly anxious to go back and clear himself.

Carver had been in Denver three or four days and the officers there were looking for him, but he eluded them.

RELIGIOUS LIFE OF HOME

Archbishop of Canterbury Delivers an Impressive Message to the American People.

Boston, Oct. 6.—The Archbishop of Canterbury, speaking before a joint session of the house of bishops and house of deputies of the Episcopal church at Emmanuel church today, delivered a message to the American body in which he urged that the church risk everything to guard the religious life of the home.

At today's session of the house of deputies several resolutions to make more stringent the canon on the remarriage of divorced persons were presented. One resolution was aimed to prohibit the remarriage of a divorced person during the life of the former partner. The whole question will come up later.

After reporting against a change in the legal name of the church at this time the committee appointed by the last convention to consider the matter was discharged.

The archbishop's address was in part as follows:

"I want to tell you of the absorbing interest in which we in England watch your gathering strength, your constant, by increasing use of the apparently boundless opportunities which are daily thrusting daily to your hands and of your fellowship in your prayers for the spirit of wisdom and understanding, of counsel and of strength. Your problems are not all of them our problems. Anyhow this at least is certain, that beneath them all we find an underlying element which is absolutely seeming to us both. Among them is the temptation common to economics, lay and clerical, in every clime and in every country, the temptation to give 'means' rather than 'ends' the main place in our thoughts, the temptation to lose the true proportion between large matters and small, the temptation to take a petty view of what life's issues really are.

"It seems to me the paramount necessity of all is that what concerns the family and the home, the common work-day life that is of the Christian people at large. It would be vain to ignore the warning voices which tell of an ebb-tide of the sense of a certain decadence in the definitely religious life of the ordinary homes falling off, that is in the very force which gave its distinctive inspiration and its distinctive power to so much of our grandsires' life. If that be true it surely behooves every gathering churchman to consider well what they can do to safeguard the men and women and above all, the children, of America and of England from the peril whose gravity it is impossible to overestimate, because it affects the very foundation of our Christian life."

CARDINAL GIBBONS DEFENDS BELGIAN POLICY IN CONGO

Baltimore, Oct. 6.—Cardinal Gibbons has written a letter to Rev. Richard H. Hale in which he says:

"I regret to say that many of the statements published recently in the press against the policy of King Leopold in the Congo valley are unfounded. [illegible] during the past twenty years I have had frequent opportunities of meeting with Belgian officials, both in Belgium and in the Congo valley, and I have always found them men of honor and integrity, who were actuated by the highest motives in the discharge of their duties. I have had occasion to visit the Congo valley and to observe the working of the Belgian system of government there, and I can say that I was much impressed with the paternal character of the government and with the kindly relations existing between the officials and the natives. I have had the honor of a personal interview with King Leopold, and I was much impressed with his intelligence and his zeal for the welfare of the natives. I have also had the honor of a personal interview with Baron Lambermont, the minister of foreign affairs, and with Baron Liedekerke, the minister of the interior, and I was much impressed with their intelligence and their

STATE'S STAR MAN SAID TO BE A PRO.

J. H. McIntosh, Athletic Director at the Agricultural College, Says Caley, Boulder's Fullback, Is Not Eligible.

"I make the charge here, and without fear of successful contradiction, that Caley is a professional athlete. Further, I shall protest his eligibility to team membership. Proof of his questionable standing will be produced at the proper time and place."

The above paragraph is from a letter written by John H. McIntosh, athletic director at the Colorado Agricultural college at Fort Collins, to W. C. Sheppard, sporting editor of the Denver Times.

The ... Caley, the star halfback and punter on the University of Colorado eleven, with professionalism, and backs the charge with a promise to prove these statements before the Intercollegiate board.

What the outcome of these charges will be is of interest to Colorado college and the Tigers especially. Caley is one of the strongest players in the Boulder team. He is their best punter and a good ground gainer, showing up well in the contests with Utah last Saturday.

Coach McIntosh, after questioning the genuineness of the effort on the part of the Boulder authorities to blot out professionalism, then says in regard to Caley:

"Less than a year ago the Denver papers contained accounts of Bill and Caley's brother having been declared a professional by one of the Pacific coast colleges. If Caley was a professional then he is not an amateur now."

ROOTERS FOR D. U.

University Will Bring Big Squad Down.

LOTS OF GINGER IN 'EM.

DENVER BUNCH IS INCLINED TO THINK TIGERS HAVE BEEN PLAYING POSSUM, AND THEY ARE ON GUARD.

Special to the Gazette.

Denver, Oct. 6.—Local gridironists are looking for one of the best games of the season Saturday, when D. U. eats down to play the Colorado college eleven. A very large ... is looked for on the Methodist's ... and the men are figuring on a big score. The Denver people do not take any stock in the score of last Saturday ... their rivals against high school. Some think Colorado college is playing possum.

The Denver team, while not as finished in the lines of play as the team of last year, shows a much better spirit, plays with a great deal of dash and ginger and is already a better team than that of 1903. The chief fault of the team is the hesitancy between the quarterback, center and halfbacks. The ball is not gotten off cleanly, but the men have shown ability in recovering the ball after fumbles.

The most hopeful among the 1904 men is Foley at center, who has learned to play his position and is charming the opponent off his feet. Two experienced players are expected this week, one an ex-Princeton player, who is a freshman in the law school, and Lee, an old Union college player, who is in the senior law class. With these two men at backs Coach Williams, D. U. has prospects for one of the strongest lines in the state.

It is safe to say that over a hundred rooters will come down from Denver.

The Tigers have been training through some hard and excellent work this week and are playing a decidedly faster game than a week ago. The spirit of the team is better and the playing has improved. Long scrubs have been put every night and the weather has been ideal for practice. It is doubtful yet whether Henderson, the giant tackle, and Bullard, halfback, will be in the game on account of slight injuries.

At a meeting of the freshman class of the college, the members of the class voted to go to the game Saturday in full force, carrying in their college spirit and root for the Tigers.

FRIDAY, OCTOBER 7, 1904.

THAT WISCONSIN CASE.

THE POLITICAL case just decided by the supreme court of Wisconsin offers some interesting points for consideration in Colorado.

It will be remembered that the fight was made against Governor La Follette, because the state central committee saw fit to seat certain delegations in the convention. Then the governor was given a three-hour hearing by the committee. The other faction of the party declared that the state central committee was not empowered to do this, and thereupon bolted and held its own convention.

In order to test the matter the mandamus was brought to prevent the secretary of state from putting the ticket nominated by the La Follette convention upon the ballot. Thus the procedure of the state central committee and of the secretary of state and other points were brought before the court. The majority of the court by a vote of three to one decided that the action of the La Follette wing of the party was entirely regular and in accordance with the election laws of the state.

In Colorado a great deal of heat has been displayed over the action of the state central committee in making up a temporary or prima facie roll call for the convention. It has been declared arbitrary and unjust and at the last meeting the action of the committee's duties was annulled. In Wisconsin, however, it appears to have at least the sanction of the supreme court. It may be doubted whether or not there is a better way to be yet devised of organizing a convention together for its opening session, where there are contests.

At least, however, one feature of the Wisconsin contest will command itself to all Republicans. Now that the matter has been passed upon by the supreme court both factions of the party will bury their differences and unite upon one state ticket and bring overwhelming victory to the party in state as well as national affairs.

THE GAZETTE POINTS THE WAY

WHILE a customary exercise of its imaginative faculty our evening contemporary takes up and indorses the Gazette's views on the social club question. But eastern contemporary's lack of initiative has led it, previously as the last few months to follow in the Gazette's footsteps.

With the evidences of this growing civic evil all around it, and almost at its doors, it never occurred to the evening newspaper to utter a word of protest or condemnation until the Gazette had first pointed the way and blazed a path. It is now pleased to second the motion.

There is no objection, as the Gazette pointed out, that can be urged against any well-regulated social club, organized for a specific purpose, not conducted for profit, owning property of tangible value, and with its affairs managed by a board of directors. But the attention of the authorities should be directed toward those clubs which are conducted purely for individual gain, where no membership fee is demanded or required, and whose portals are open to every comer regardless of age or sex. They are private affairs conducted for profit. In this respect they are no better than unlicensed saloons.

THEY SHOULD PAY UP.

THE TAXPAYERS who are delaying the secretary and sign-boards which have been placed for their convenience upon the various roads in this vicinity should be given to understand that they should pay up. Why any person of ordinary common horse sense should want to wrap all power and gall up evergreen trees that are pretty and add beauty to a landscape is a matter which passes comprehension. The only way to teach such people to respect the rights of the public is to [illegible]

SAME PRINCIPLES EVERYWHERE.

THE ROOSEVELT [illegible] in Colorado are going so fast that it is difficult to keep a supply on hand. They come from New York and they are just the [illegible] the people of this state, as well as the east.

The Republican party stands for practically the same principles all over the country, from the Atlantic to the Pacific, and Mr. Roosevelt, the leader in the fight, stands for Roosevelt and Fairbanks, the straightforward leaders of a [illegible] things.

The Democrats have to kind of sneak up on [illegible] it will be quite a surprise if Alton Adams is elected. Perhaps it will be if the Democratic men of the [illegible] are willing to turn over their established [illegible] Hearst and Shepard and let them run the business. The Gazette will in the [illegible] trial promises

she has decided to abolish the barbarities of bull fighting. Bull fighting was the millstone hanging about the neck of that country which to a large degree kept her from holding her own among the nations of the earth.

Here it is the 7th day of October and the Gazette continues to add new arrivals to its visitors register. People are beginning to find out that Colorado Springs and the Pike's Peak region are delightful places to visit at every season of the year.

Tom Watson says that he will "neither invite a negro to dine with him nor appoint one to office." The views of the negro regarding Tom Watson are not disclosed, but they would undoubtedly be willing to reciprocate his sentiments.

John Sharp Williams double locks the ballot box in his district where the colored voters should be permitted to cast their votes and then comes north to plead for the franchise for the Filipino.

The Japanese soldiers may drink Manitou mineral water. But they don't need any ginger, by gum.

DUTY OF ALL ORGANIZATIONS.

"We are no more against organizations of capital than against organizations of labor. We welcome both, demanding only that each shall do right and shall remember its duty to the republic."—President Roosevelt at Milwaukee, Wis., April 3, 1903.

Wit and Wisdom

THEORY AND PRACTICE.

The pupils were being examined on the subject of personal hygiene.

"A boy was asked, "What have you to do in order to keep your teeth sound and white?"

"Clean them," was the prompt reply.

"When ought you to clean them?"

"Morning, noon and night."

"What are they to be cleaned with?"

"With a toothbrush."

"Very good; have you a toothbrush?"

"No, sir."

"Has your father a toothbrush?"

"No, sir."

"Has your mother a toothbrush?"

"No, sir."

"But how do you know about the use of toothbrushes?"

"We sell them, sir."—Pittsburg Bulletin.

BEECHER AND "THE ROOSTER."

That Henry Ward Beecher was a great public entertainer by his quickness at repartee is illustrated by the following story:

One evening, as he was in the midst of an impassioned speech, someone attempted to interrupt him by accidently crowing like a rooster. It was done to perfection; a number of persons laughed, or spoke to companions, and the speaker's friends felt that in a moment the whole effect of the oration and Mr. Beecher's thrilling appeals might be lost. The orator, however, was equal to the occasion. He stopped, listened till the crowing ceased, and then, with a look of surprise, pulled out his watch.

"Morning already!" he said; "my watch is only at ten. But there can be no mistake about it. The instincts of the lower animals are infallible."

There was a roar of laughter. The "lower animal" in the gallery collapsed, and Mr. Beecher was able to resume as if nothing had occurred.—(Success.

A prominent Southern lady, Mrs. Blanchard, of Nashville, Tenn., tells how she was cured of backache, dizziness, painful and irregular periods by the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Gratitude compels me to acknowledge the great merit of your Vegetable Compound. I have suffered for four years with irregular and painful menstruation, also dizziness, pains in the back and lower limbs, and fitful sleep. I dreaded the time to come which would only mean suffering to me.

"Before health is all I wanted, and cure if possible. Lydia E. Pinkham's Vegetable Compound brought me health and happiness in a few short months. I feel like another person now. My aches and pains have left me. Life seems new and sweet to me, and everything seems pleasant and easy.

"Six bottles brought me health, and was worth more than months under the doctor's care, which really did not benefit me at all. I am recommending your medicine so good for sick women as your Vegetable Compound, and I advocate it to my lady friends in need of medical help."—Mrs. E. A. "DEAR MRS. PINKHAM:—I have been cured of severe female troubles by the use of Lydia E. Pinkham's Vegetable Compound. I was nearly ready to give up, but seeing your advertisement I purchased one bottle of your medicine, and it did me so much good that I purchased another, and the result was so satisfactory that I bought six more bottles, and am now feeling like a new woman. I shall never be without it. I hope that my testimonial will convince women that your Vegetable Compound is the greatest medicine in the world for falling of the womb or any other female complaints."—Mrs. MAY COPE, 2560 Birch St., Philadelphia, Pa.

MRS. MACKAY MIXED COCKTAIL

Joker Tried to "Stump" Her at Her Fair, but Got Cocktail for a Dollar.

New York, Oct. 6.—"A dry Martini, please." The man who made the remark thought he had gotten off a huge joke and laughed heartily. He was knocked almost unconscious when he turned around again to find that pretty feminine hands were flying around in extremely well-directed efforts to fill the order.

It is a difficult thing to "stump" Mrs. Clarence H. Mackay, as the man found who gave the order found out—the remainder discovered the fact in good time.

The Real Thing.

It was the real thing, too, although it would probably have proved intoxicating enough without the number ingredients coming from such hands as Mrs. Mackay's. That silver and mirror of drinks for the sake of great charity did not offend their æsthetic sense for the exhilarating effect, but put enough of the real stuff in each glass to produce the appropriate shock of the first taste of really good cocktail.

MISS YERIAN BECOMES BRIDE OF POPULAR CIVIL ENGINEER

Miss Clara Pauline Yerian and Mr. William Ira Watkins were united in marriage at the home of the bride's brother, Mr. William H. Yerian, 30 North Tejon street, at 6 o'clock last evening.

The parlors where the ceremony took place, were beautifully decorated for the occasion. Only immediate relatives witnessed the ceremony, which was performed by the Rev. S. E. Wilcox, pastor of the First Methodist church. Immediately following the reception was tendered to a large number of the friends of the contracting parties.

Mr. and Mrs. Watkins left the city on a late train for the east, where they will spend their honeymoon, visiting St. Louis, Chicago and New York city. They will be "at home" to their friends after December 1 at 30 North Tejon street.

Mr. Watkins has a host of friends in the city who will congratulate him on this happy occasion. He has been connected with the city engineer's office for several years as assistant city engineer, where he has won the warmest praise for his work. Miss Yerian is well known here, being prominent in the younger set, and her many friends will wish her every happiness.

LAID TO REST WITH TENDER TRIBUTES FROM MANY FRIENDS

Many friends and former associates of the late F. L. Martin filled the family residence, 115 East Platte avenue, yesterday morning to pay their last tribute of respect to the old resident whose career has been so closely associated with the growth of this city.

The casket bore floral tributes of warm friendship and deep regret, piled high, as were the wife's beautiful potted plants and cut flowers.

The funeral was conducted by Rev. James B. Gregg, D. D., pastor of the First Congregational church. Dr. Gregg spoke feelingly as he drew out the lessons from the life of him who had gone. He paid tribute to his worth as a man and a citizen and emphasized the [illegible] spent in this community.

Following the addresses, the friends of the deceased were given an opportunity to look on the face of their old friend, and then the following pioneer residents of the city carried the casket to the funeral car: Charles E. Noble, A. Patton, Col. Elmer T. Eggleston, F. L. Rouse, Matthew Kennedy and Joseph F. Humphrey.

Interment was at Evergreen cemetery and was private, only the pallbearers and the immediate family being present.

TO TEMPORIZE CLASS SCRAPS

Reform Movement Begins at Colorado College.

BAN ON PARTY FIGHTS

"RIVALROUS SPIRIT OF YOUNG MEN CONCEDES DESIRE TO START 'ROUGH HOUSES' AT SOCIAL GATHERINGS.

An effort is now being made by the students and authorities of Colorado college to abolish the class scraps of the kind that took place between the freshmen and sophomores a few weeks ago and substitute in their place civil but objectionable class contests.

Committees appointed by the four classes have adopted resolutions discountenancing class scraps of parties held either in or outside the college campus. Any such interference usually results in the destruction of property or disturbs the public peace.

It is held that it should be the best sentiment of the college to regard any such scraps in the future as "disgraceful and cowardly." Only those contests which should not take place in the presence of the young women, or which are liable to prove disastrous to the public peace or private property, are placed under the ban by the resolutions.

Meetings of the freshmen, sophomore, junior and senior classes of the college will be held within the next few days to take up the discussion of these resolutions. It is thought that they will meet with the approval of all the students.

It has been suggested that the college follow the example of some of the eastern institutions where the contests between sophs and freshies are annual events and have become important among the students.

Victor E. Keyes, of the senior class, acted as chairman of yesterday's meeting. The members of the committees in attendance from the various classes were: Seniors, Victor E. Keyes, Willis E. Hunter and Miss Jane Jeannette Sabin; Juniors, Orin Rudolph and Thomas Hartley; sophomores, James McCormick, J. J. Vandercook and Charles Templeton; and freshmen, Harley Sill, Donald McCreery and Miss Edith Mell.

EL PASO COMPANY'S SEPTEMBER RECORD

Clear Profit of $70,000 Netted Above All Expenses and Gives Basis for Rumor of Increased Dividends.

Special to the Gazette.

Cripple Creek, Oct. 6.—During the month of September the El Paso Gold Mining company, which territory is situated on Bonanza hill, shipped ore with a gross value of $120,000 and after paying all expenses, such as wages, sampling, freight, treatment and other expenses the company netted a clear profit of $70,000. With the company making a profit of 58 per cent on the gross value of the ore shipped, the directors will probably be good enough to declare a dividend before the end of the month.

The ore now coming from the property is of the same grade as that which has been shipped from the beginning, hence the ordinary output may be expected during the coming month. The company is breaking a tunnel from which the 700-foot level, from which the remaining returns come, originates. This tunnel, however, is not expected to reach the ore shoot for some time to come, but it has just been entered, and at the present time the ore is returning values of over one ounce to the ton.

GOLD PRODUCTION FROM TELLURIDE TERRITORY

Special to the Gazette.

Cripple Creek, Oct. 6.—Large shipments of ore are now being made from the Smuggler-Union mine, situated in the Telluride district. The Smuggler-Union is one of the largest producers in the Telluride district, and is now employing a force of 100 men. The ore is being worked from a vein varying from 4 to 6 feet in width, and is said to be very rich in gold. The Smuggler-Union is one of the oldest properties in the district, and has been a steady producer for many years.

RECALLS RESERVES

The Italian Occupation of Tripoli Is Among Conjectures as to the Cause---Possible Domestic Troubles

Rome, Oct. 8.—The war office has recalled under arms the reserves of 1903, except the cavalry and artillery.

This action places about 50,000 more troops at the disposal of the government.

The action of the government is regarded as a precautionary measure. The nature of present operations against the Arabs and the extent which it contemplates the absorption of the Chamber of deputies, and a consequent delay in the Italian occupation of Tripoli.

RUSSIAN SHIPS DAMAGED BY FIRE OF JAPANESE FORTS

Confirmation of the fact which developed on the China sea and Japanese waters on October 4 precipitates active operations by the Japanese fleet, that is now shelling Port Arthur.

The British steamer Siebun with a cargo of cattle and flour from Shanghai for Port Arthur has been seized by the Japanese off New Chwang. It is reported.

No information bearing upon the military situation in Manchuria is contained in today's despatches either from Tokio or St. Petersburg. From Tokio comes an official report of the recent skirmish which took place at an place where the extended front of the armies the nose of them was of an important character. Tokio also reports that four Russian warships were damaged by the fire of the Japanese land batteries during the recent fighting at Port Arthur, one of the vessels being completely destroyed. ALLEGED ATTEMPTS TO SELL FOUNDLINGS IN ARIZONA

Phoenix, A. T., Oct. 7.—According to the most reliable advices obtainable regarding the situation at Morenci, Ariz., shipping town in Graham county over the alleged attempts to sell foundlings from New York city, the situation is not as serious as has been reported.

Reliable advices from Clifton a town near Morenci, are that 40 children were sent out by the New York Foundlings' Orphan asylum. Sixteen of these were placed in families in Clifton and six taken to Morenci, where the majority of them were placed with poor Mexican families.

The American residents of Morenci objected to the children being placed with a class of Mexicans whom they claim were unfitted to have care of them. An indignation meeting was held in Clifton and resulted in the arrest of G. W. Swayne, the agent of the asylum, and the local priest. The people demanded that the children be put in the care of American families but Swayne refused to do this and said he would take them back to New York. Objection was made to the placing of the children into Swayne's charge and it was feared by some that they might be taken to Old Mexico.

The latest authentic report is that Swayne is awaiting instructions from the asylum officials in New York. The purpose of Swayne and associates seems to be to place children with Catholic families in this section of whom there are many being only those orphans to be brought to supervise the distribution of the children.

HEAVIEST VESSEL IN NAVY IS LAUNCHED AT SEATTLE

Seattle, Oct. 7.—Amid scenes [illegible] 12 minutes before the scheduled time, the battleship Nebraska left her ways at Morgan Brothers' ship yard in this city and slid gracefully and majestically into the waters of Puget Sound.

The launching was entirely successful and no hitch marred the proceedings. The only reason the vessel was launched ahead of time was that by a slight miscalculation the poppet, a wooden brace at the bow was raising the vessel too high and in the opinion of the experts it was better that the supports be knocked away without delay.

Fully 50,000 people viewed the ceremonies and saw the big vessel slip into the water. She created but a very small wave as she took her maiden plunge and floated out gently and gracefully. Naval men who viewed the launching stated that it was the most successful they ever saw.

The Nebraska weighs more than any vessel ever before launched in the U. S. navy. Immediately after the launching the big single liners that hovered about her with decks black with excursionists looked diminutive beside her.

Miss Mary Mein Mickey, the daughter of Governor Mickey of Nebraska, christened the vessel.

Lack of Political Enthusiasm Is Noticeable.

EYES ARE ON COLORADO

JUDGE KURNAL K. KABBITT SIZES UP FEELING IN NEW YORK—HAVE CLEAR CONCEPTION OF AFFAIRS OUT WEST.

From all accounts the feeling in the east over the presidential campaign is one of apathy rather than excitement. There is a noticeable absence of the strenuous spirit that has characterized other presidential campaigns, and the lack of enthusiasm on the part of both parties is one of the first things noticed by a visitor from the west to the east.

Judge Kurnal K. Kabbitt in an interview yesterday gave voice to this impression. He has just returned from an absence of three weeks in New York and other eastern cities and on his way home spent several days in the World's fair.

"I found that apparently there was very little excitement in the east over the national campaign," said Judge Kabbitt. "Neither party seems able to arouse any enthusiasm and it is generally acknowledged that on national issues the present campaign is the most dull one that there has been in a great many years.

Tariff Issue Killed.

"The tariff, which is the only question which might have presented with an issued issues seems to have been pretty well eliminated by Mr. Taft's declaration that even if he were elected, a Democratic senate would prevent any disturbance of business conditions along these lines.

"Speaking of local issues, Judge Kabbitt said, 'Everyone in the east seems much interested in the situation in Colorado and the men whom I met seemed to have a very clear notion of the situation here.

"They hope no less than Governor Peabody has at any time been engaged in a crusade against organized labor as such. They fully recognize the fact that he has only been called upon to cope with a propaganda that everybody seems to be a desperate organization.

Democratic Theory.

"From what I have read and heard since my return, it seems that the Democrats of Colorado are developing the campaign on the theory that Governor Peabody, without investigation or provocation, started out to make war against a few honest, hard-working and respectable citizens who were suffering from pellagra and who only sought to pursue quietly their lawful vocations. I believe the people of the state understand the situation too well to be misled by such dishonest methods."

GOLD MEDAL FOR VAN BRIGGLE WARE

Colorado Springs Pottery Awarded First Honors at the World's Fair---Will Add to Fame of City as Art Center.

The Van Briggle pottery, of this city has been awarded the gold medal, first prize, at the Louisiana Purchase exposition, at St. Louis.

The good news was contained in the following telegram received yesterday by Mrs. A. Van Briggle in this city:

"Congratulations. Our pottery has been awarded the gold medal.

"JAMES CONNOR."

Mr. Connor has been advancing the interests of the Van Briggle pottery at the fair as the special representative of the company.

The Van Briggle pottery ware was in competition with all the potteries of the world. Rookwood, Grueby, Teco and Merriman ware exhibited and their claims put forward by their respective representatives, but the peculiar charm of the Van Briggle ware won for it first honors. The fact that this award is the nearest approach to the old Chinese glaze probably figured in the judgment of the connoisseurs who passed upon it.

The awarding of first prize to this ware at the great St. Louis exposition is not merely a source of rejoicing for Mrs. Van Briggle and the other members of the company but is a matter of congratulation for the city, inasmuch as it brings Colorado Springs before the artistic world in a new line which will redound to the credit of the city.

From a small experimental pottery plant, started in the rear of his residence on North Cascade [illegible] years ago the late Artus Van Briggle built up in this city an establishment where wares are now being sold to all parts of the civilized world. For years it has held a prominent place and at the Paris exposition was given a special honor in being granted one of the most prominent positions in the art exhibit.

BRITISH CAPTAIN'S METHOD OF PROTECTING AN AMERICAN FUGITIVE FROM MEXICAN OPPRESSION.

San Diego, Calif., Oct. 7.—Pursued by the Mexican authorities, after being released from the Ensenada jail on bail, Captain Frank Manha, of the schooner May, took refuge on the British steamer St. Denis, where the captain locked him in and nailed the American flag on the door.
